"When only home will do, we can help."

Our Mission

It is the mission of Compassionate Care Home Health Services, Inc. to promote recovery and independence to those in need by providing the highest quality of proactive, result-oriented, and compassionate care for clients in the comfort of their own home.

This mission is achieved through the assistance of physicians, case managers, family members and our compassionate caregivers.

Our Vision

Compassionate Care Home Health Services, Inc. has been providing exceptional service in Michigan since 1998. It is our vision to be the preferred provider and employer of the highest quality home health care in the state of Michigan.

Let us send someone from Compassionate Care to meet with you and your loved ones to discuss all your options when home care is needed. Please call us with any questions you may have or to set up a free assessment.

Are you or a loved one planning to return home from the hospital or nursing home? Compassionate Care will make an assessment free of charge to the hospital or nursing home to create a care plan that will assist you in leading an independent life at home. Compassionate Care will also work with the discharge planners to ensure your transition back home is smooth.

Safety and Security

Compassionate Care offers safety and security by providing our employees with worker's compensation insurance. This insurance relieves you and your loved ones of liability and ensures replacement staff that private individuals can't offer.

All employees are screened during an interview process. This screening includes work and personal references as well as a successful completion of a criminal background check.

Homemaking/Personal Care

An aide is available to assist you with your everyday needs. Whether it's cooking, laundry, vacuuming, or assisting you with a bath, we can help by providing dependable, quality care.

Medication Set Up

A nurse will visit your home, as needed, to set up medications. This service includes contacting your physician and family as appropriate. Teaching new medications and monitoring for medication effectiveness is also part of this service.

Call Compassionate Care Home Health Services, Inc. for information on other services and to find out how we can help you.

A proud member of the Michigan Home Health Association
"In good standing providing honest, direct, and efficient health care and services within the community and the state of Michigan."
